

FUTURISTIC RAW HARDSTYLE

Futuristic Raw Hardstyle that makes you feel strong. Raw kicks and emotional melodies, influenced by Argent Metal and video games.

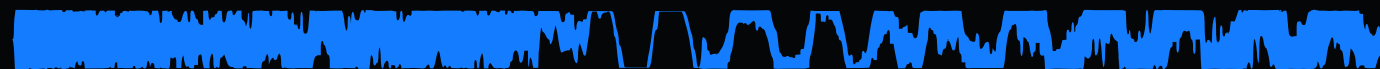

Regenesis is the Raw Hardstyle duo of Eike Sippel and Avram Ivanovic from Germany. The two first met at a Defqon.1 Friendscamp, founded Regenesis in 2020, and in 2025 they stood on the Defqon.1 stage themselves. Eike comes from the DJ booth, Avram from the studio. Their sound is futuristic Raw Hardstyle that makes you feel strong: brutal kicks, emotional melodies and a powerful, heavy energy shaped by Argent Metal and video game soundtracks. They create it entirely themselves, with almost no samples and no AI in their music. Content, merch and everything else around Regenesis is made in-house as well, so the brand stays as personal as it can be.

Besides Defqon.1, Regenesis has played Rebirth Festival, Bootshaus Cologne, Proton Stuttgart, Dreamdale Festival and many more.

Their music has been released on Scantraxx Prospexx, Unfold Records, Dequinox, InsaniX and Break The Rules Records. With HYPERDEATH they set the benchmark for their sound. Along the way they tried to make that sound as unique as possible, but realised they were drifting away from the hardstyle vibe. So they are now returning to the HYPERDEATH sound to carry it into the future, because this is the sound of Regenesis, and it is here to stay.
